

Here are 5 rules which Allen follows for a safe, online journey.

1 We ask before we start

We ask a parent or teacher before we:

- use a device
- visit a new website
- play a new game
- download an app.

2 We share and take turns

We take turns on devices and games.

We play safely online together.

3 We stop and think before we click

We know our friends before we chat or share.

4 We ask a parent or teacher for help

We ask for help from a parent or teacher if something online makes us feel uncomfortable or upset.

5 We log off when we finish

We log off the game, website or app and close or put the device away.
